Hi, Erin-

Sure. No problem. Please call me when you are out of the meeting. I'm in the office today.
Best,
Michelle-

Hi Michelle,

I'm sorry I missed your email. I caught a flight to NYC this morning and have a meeting at EPA bldg. tomorrow from 9-12 EST. I can call or text you as soon as I'm out of my meeting to catch up.

Race was quite the trip. Thankfully that feeling that I'm still on water has finally worn off and that raccoon-like sun glasses tan is beginning to fade. Phew.

Erin

Hi, Erin-

How was the race?! I'm sure it was an adventure! Hope you had an awesome time!

I'm drafting an email to Bruce Kennington about 2 issues we have with the proposal they shared with us on the 7/2 call. The 2 issues are:

1. Scope of the PDI
2. Schedule of the project.

Can we talk later today? Let me know what time is good for you. I'm available after 3pm today.

Thank you!

Michelle-

Hi Michelle,

Hope you had a great vacation. Yes, there was a call on 7/19 to formalize the decision to screen POHMW49 at the top 20-ft of the saturated thickness where the TCE concentrations were the highest. Brad and Josh discussed with Nica on 7/18.

Feel free to call to catch up any time before noon CST today. I'm actually headed out of the office for vacation / a river race that will last the remainder of the week, but Brad Brink will be in the office and is up to speed on POHMW49 and the OU3 investigation data gaps if you need anything while Josh and I are out this week.

Josh - I wasn't entirely sure your schedule this week, so feel free to chime in if you'll be available this week.

Erin

Hi, Erin-

Hope all is well! I've been out on vacation since the 13th and am now going through lots of emails. I will call you later to touch base and get an update. Was there a conference call on 7/19?

Thank you!

Michelle-
